

CASH IS YOUR SUPERPOWER USE IT

BY USING CASH, WE CAN STOP A CASHLESS SOCIETY OF CONSTANT SURVEILLANCE, SOCIAL CREDIT SCORE AND TOTAL CONTROL

In Ireland, and all over the world, governments and banks are trying to force people into a cashless society. This is a grave danger to all of us.

WE ARE THE 99% WE CAN STOP A CASHLESS SOCIETY

What to Do

Refuse to use businesses that do not take cash and tell them why.

Use cash as much as possible.

Spread the word and ask your friends to join us.

Please make the effort; it's well worth it. Few other things have the potential to erode freedom on such a massive scale as the elimination of cash!

Cash is legal tender and by law you can't be refused service, or a product for cash!

€ CASH IS KING €

- ❖ Small businesses save money, keeping money and employment in the local economy, benefitting the community.
- ❖ Cash flowing through the economy keeps local banks open.
- ❖ It benefits tradespeople, gardeners, cleaners, childminders waiters, traders (crafts, festival, food) tutors etc and keeps money local.
- ❖ Church gate collections and sponsored fundraisers benefit
- ❖ Homeless people can get donations and buy food.
- ❖ Victims of abuse can save up to escape.

WITHOUT CASH

- ❖ Every single thing you do is tracked. You can be cut off from your own money if the government doesn't like your behaviour (already happening in Canada, China, Australia).
- ❖ Govt. can dictate what kind of food you can buy and the quantity of meat, alcohol, fuel etc that you are allowed.
- ❖ You cannot take your money out of the bank if you fear a crash.
- ❖ You are more at risk from fraud.
- ❖ You will constantly have to update expensive software and devices.
- ❖ No tooth fairy, pocket money, tips for kids/staff, cash in birthday cards.

Many businesses are trying to force us to go cashless but some have now pulled back due to customer backlash showing that we can stop this.
