

# Take Action to Stop a Digital Prison

A Cashless Society, Digital ID, CBDC and Smart Cities, with Controls on Free Speech and the World Health Organisation (WHO) Treaty will create a digital prison. Power and control will be in the hands of unelected privately funded bodies with constant surveillance and total control.

All your **MONEY, SHOPPING, TRAVEL, ENTERTAINMENT, DAILY ACTIVITIES** and **CARBON FOOTPRINT** will be tracked by your Digital ID. If you exceed any government regulations you will be **DENIED ACCESS** to everyday activities  
**NO** long-distance travel to see family, or enjoy outdoor hobbies  
**NO** holidays abroad  
**NO** choice of schools/doctors.

**WE ARE THE 99% WE CAN STOP THIS**

## 1. FREEDOM OF SPEECH

Free Speech is our most important right underpinning all other freedoms giving us the right to protest against the planned Digital Prison.

The Irish government will try to curtail free speech by introducing new hate speech legislation. We already have adequate hate speech legislation.

These new laws will protect

politicians, big business, bankers etc from facing opposition as citizens whose speech is deemed unacceptable will be punished. Controlling free speech is a first steps towards tyranny. Don't relinquish the freedom Irish people died for.

## 2. WHAT SMART CITIES/TOWNS REALLY MEAN

**IRELAND HAS ALREADY AGREED** to map out **SMART CITIES/TOWNS/VILLAGES** in line with **UN AGENDA 2030** under the guise of tackling climate change.

<https://www.dublincity.ie/business/economic-development-and-enterprise/smart-cities>  
Smart cities/towns/villages work by mass surveillance. The stated goal is to improve life but the reality is a **NIGHTMARE CONTROL GRID** of sensors, cameras, digital ID, facial recognition, biometrics (fingerprints, eye scan etc), and being tracked 24/7.

Data collected will be accessible to all big corporations involved. Dublin City Council have signed up with "Google, IBM, AT&T, Microsoft, Vodafone, Mastercard" etc.

check [www.freedomtruthpeaceireland.com](http://www.freedomtruthpeaceireland.com) for verification and more info

Oxford City is now being divided into 15-minute zones. The number of times you can leave your zone is limited after which you pay a fine. **Oxford is currently in full scale rebellion** against this (20/15/10 minute zones are already planned for Ireland).

**What Can You Do:** Attend local meetings advocating smart cities, to protest and raise awareness. Raise your concerns with TDs and councillors and tell everyone what is happening. Read 1984 & Animal Farm.

### 3. CASH IS KING

**What Can You Do:** Use cash as much as possible and boycott card only places, cash keeps us safe from control systems.

#### Benefits of Cash

- ❖ Helps small businesses and keeps local banks open.
- ❖ Helps tradespeople, homeless, those escaping abuse.
- ❖ No tracking or government limiting access to your money.
- ❖ In a cashless society, governments can dictate all purchases (food, fuel etc).
- ❖ Less fraud with cash and you do not need expensive software and devices.

### 4. DIGITAL ID, SOCIAL CREDIT SYSTEM & CBDC

**What Can You Do:** Use Cash & refuse to accept a Digital ID or CBDC

A European Digital ID was announced in 2020. It will contain all personal documents and be used for accessing public services, bank account, taxes, etc. It's **ALREADY MANDATORY** in Ukraine (Diya app) and Latvia (eID) and being introduced in France.

## Social Credit System

### What Can You Do: Refuse to Accept/Use It.

A DIGITAL ID is needed for this points-based system (assessed by artificial intelligence). You are penalised for high carbon footprint, disagreeing with government, slow bill payment, excess socialising/fast food/alcohol etc.

Penalties include bank loan/credit card refusal, limited access to public transport/cinemas/shops/good schools.

Social Credit systems are already in place in Europe and the USA and will eventually be mandatory. The vaccine passport was a type of social credit system.

China, where people already live under this system, is a dystopian nightmare.

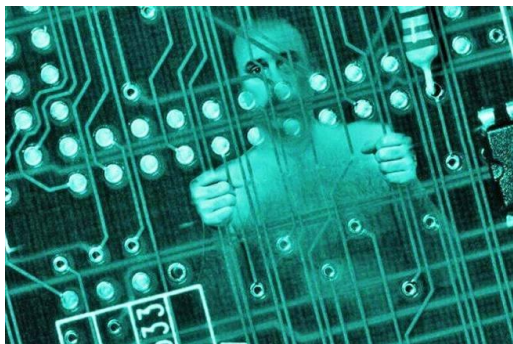

Italy: <https://thecountersignal.com/italy-could-be-first-eu-nation-with-social-credit-score/>

USA: [thehill.com/opinion/finance/565860-coming-soon-americas-own-social-credit-system/](http://thehill.com/opinion/finance/565860-coming-soon-americas-own-social-credit-system/)

## Central Bank Digital Currency

Most countries are introducing CBDCs and aim to totally eliminate cash, debit cards etc. **ALL** your money will be in a digital wallet on your phone and the government will have **TOTAL CONTROL** over it. They will decide how, when and where you can spend your money. In a 15 minute zone for example (see above) your money will

only work within the zone. Your consumption of fuel, alcohol, meat, will be increasingly limited due to carbon emissions. Your money will be frozen for criticising the government. Not spending all your money will not be an option as it will have an expiry date; so you cannot save. CBDCs ties in perfectly with Digital IDs and Social Credit Systems.

**BE PREPARED, THE GOVERNMENT MAY TRY TO FORCE A DIGITAL ID/CBDC ON US (PERHAPS FOR FUEL RATIONING). JUST SAY NO, TOGETHER WE HAVE POWER.**

**Do not allow: Absolute power. Total surveillance. Sanctions for non-compliance.**

# 5.WHO PANDEMIC TREATY

**What Can You Do: Contact your TDs and the Attorney-general (see website).**

**THE WORLD HEALTH ORGANISATION (WHO) WANT 194 countries including IRELAND TO SIGN A LEGALLY BINDING TREATY THAT WILL GIVE THEM TOTAL CONTROL** in any “public health emergency of international concern”.

Stephen Donnelly has said he will sign the treaty which will suspend Articles 6 (1) and (2) of our constitution **DESTROYING IRISH SOVEREIGNTY.**

The WHO is an unelected body mostly funded by private corporations pushing their own agenda for profit. As previously the WHO will push lockdowns, closure of businesses and social services and vaccinations; causing mental, physical and economic suffering.

**THE TREATY PROVIDES FOR A TAKEOVER FOR MEDICAL, CLIMATE AND OTHER REASONS AND FOR DICTATING FOOD & AGRICULTURAL POLICY**

**WE ALL WANT TO SAVE THE PLANET & CREATE BETTER LIVING CONDITIONS FOR ALL BUT CREATIVE SOLUTIONS ARE BEING IGNORED IN FAVOUR OF DYSTOPIAN CONTROL SYSTEMS THAT ONLY BENEFIT ELITES & BIG BUSINESS**

# 6. HELP US

All over the world groups are coming together to reject a dystopian future Join us. Come to one of the *Hold the Line* groups to help us give out information; or spread the word by sending a PDF of our information leaflets to everyone you know, see [www.sovereignpeople.ie](http://www.sovereignpeople.ie)

**WE ARE THE 99% WE CAN DECIDE THE FUTURE**
